20 Macs for 2020: #18 - Xserve It's 2020, and Apple is shipping a rack-mountable Mac Pro. It's the latest chapter in a decades-long flirtation between Apple and the machines that dwell in the server closet. Even though the Mac Pro is rack-mountable, Apple can't quite see it as a server—you can't buy it without a mouse and keyboard.

### 20 Macs for 2020: #18 - Xserve - Six Colors

The Xserve was the first Apple machine to include Double Data Rate RAM, and had an innovative hard drive scheme: four hot-pluggable bays, each running on its own UltraATA-100 bus, accepted special Apple drive modules (available in 60 or 120 GB each) for a maximum of 480 GB of storage.
